

## myHealth Portfolio<sup>SM</sup>

myHealth Portfolio<sup>SM</sup> is a self-service consumer dashboard for healthcare management. It puts you in control and shows you the way to make informed, health finance decisions. Our Member Website lets you make the most of your health accounts.

With myHealth Portfolio<sup>SM</sup>, you can:

- Store health expense data and receipts
- File claims or distribution requests
- Initiate a provider payment
- Consolidate health expenses and claims from multiple insurance providers (this functionality may incur an additional fee)
- View a snapshot of your personal healthcare finances with online charts and graphs

### Expense Tracker

Use the expense tracker to store expenses and receipts in the system to pay from your account now, pay later, or simply store for your records - it's like an electronic "shoebox".

### Online Bill Pay

Scan in bills from your laptop or photos of bills from your mobile device and submit them for payment to either yourself or a provider for eligible expenses. A check is then sent to the appropriate provider as requested by you.

**"myHealth Portfolio<sup>SM</sup> gives me the complete picture of my health accounts. And, it's all available right at my fingertips."**
